### INTRO

At some point in time, you must have heard the phrase, '10x developers'. Many claim to be one but their skills fall short, I'm a true 10x developer. I've spent the last 4+ years polishing my skills to an exceptional level, I can confidently undertake any design and deliver a fully functional responsive UI, learn and master a new concept or language in a short time, analyze and solve problems. I specialize in React, Next.js, Typescript, HTML and CSS, and have some backend experience working with Node, Python and PHP but can learn a new language as needed.

### SKILLS

#### Programming languages

Javascript, Python

#### Web Technologies

React, Next, Typescript, Node, Express, Django, MongoDB, HTML, CSS, Sass, Tailwind, Git, Redux, Figma

#### Professional

Problem solving, Critical thinking, Fast learner, Excellent communication, Team player

### EXPERIENCE

#### Descinder - Chief Technology Officer

SEPTEMBER 2023 - PRESENT

**Technologies used: React, CSS, Python, Django, Git, Figma**

- Built a responsive landing page that contains animations and slideshows
- Implemented lazy loading to exponentially reduce page load time
- Built a web application that toggles the UI based on the role of the logged in user
- Suggested various and better approaches to implementing the proposed solution
- Performed extensive test on the developed solution
- Led the technical team
- Consumed APIs to send and receive data
- Used Git as my version control system

#### Harbor Inc - Lead Frontend Developer

MAY 2022 - JULY 2023

**Technologies used: React, CSS, Redux, Git, Figma**

- Developed several responsive web applications e.g Harbor's website, Talon (talent recruitment), Ydev's dashboard, Ydev's web app (rebranded)
- Consumed APIs to send and receive data
- Used JSON web tokens for authentication and authorization (login functionality)
- Developed multiple landing pages for the company
- Made updates and managed an already existing dashboard site
- Currently building a talent outsourcing web application
- Lead a team of 4 developers as the frontend team lead
- Integrated external analytics tools e.g Google Analytics, Microsoft Clarity
- Integrated Hubspot live chat
- Improved websites overall SEO performance by 60%

- Optimized sites to improve load speed by over 50%
- Optimized previously existing codebase: made it cleaner and more structured
- Worked on multiple bug fixes, user interface updates and performance enhancements
- Converted various Figma designs to webpages
- Used Git as my version control system

#### Wadoo - Frontend Developer

JUNE 2022 - SEPTEMBER 2022

**Technologies used: React, CSS, Tailwind, Redux, Git, Figma**

- Developed a Dashboard web application
- Used JSON web tokens for authentication and authorization (login functionality)
- Consumed APIs to send and receive data
- Used Git as my version control system
- Changed UI based on role and permissions

#### Freelance

JAN 2020 - PRESENT

**Technologies used: Next, React, Sass, Redux, Git, Figma**

- Developed an apartment outsourcing website where users can book apartments to stay in. Authentication, authorization, version controlling, API consumption, developing UI from designs, responsiveness, following optimal SEO standards were all performed
- Developed a e-library platform used for the uploading of tutorial videos for university students

#### Personal Projects

NOV 2019 - PRESENT

**Technologies used: Next, React, Node, Sass, Tailwind, Redux, Git, Figma e.t.c**

- Developed an invoice application using Node, Express & Mongoose for performing CRUD operations
- Built an ecommerce site using Next for fetching and displaying of products
- Developed a movie recommendation website using React
- Developed a personal portfolio site
- Developed lots of responsive web applications
- Consumed APIs to send and receive data
- Converted various Figma designs to webpages
- Used Git as my version control system

### EDUCATION

2019-2023

**Bachelor of Science in Computer Science** (undergraduate)

Lagos State University, Nigeria

C.G.P.A - 4.44 (Second Class Upper)

### CERTIFICATION

2019-2023

**Bachelor of Science in Computer Science**

Lagos State University, Nigeria
